PROJECT EXPERIENCE

This multi-storey court facility for the Ministry of the Attorney General is comprised of a fully renovated existing building of heritage value and a new addition. It contains a state-of-the-art courtroom & motions room as well as Ministry of Attorney General offices, public access, and holding cells. The total project is comprised of 1550 m² of building area, including 1086 m² of new construction. The building features multiple security access features and technologies, fire safety features, UD barrier-free access including lifts, specific ventilation requirements, and durable finishes. Site work features new barrier-free ramp access, on-site parking and landscaping features that promote occupant safety. Renovation work includes intensive intervention within the original structure. This project was designed by a multi-disciplinary team for Leadership in Environmental Design (LEED™) certification.

Construction Summary: Reinforced concrete and concrete block, structural steel, brick and granite exterior finishes | Multi-zoned/differential pressure ventilation system for air quality control | Security systems include: CCTV, electronic & mechanical digital keypads, panic alarms.
