2012

Keewatin-Aski Ltd. was engaged to provide a conceptual design, design brief with cost estimates, architectural and interior design, detailed design, tendering, and contract administration services for the rehabilitation/conversion of the former CN/VIA Rail Station located on Front Street at Centennial Park in Sioux Lookout. Main features of the rehabilitation include:

- Retention of exterior Heritage values
- 8,130 ft² of renovated floor areas
- Barrier-free compliant entries and public areas
- New interior layout and finishes throughout
- New energy-efficient electrical and plumbing fixtures
- New elevator serving main and upper floors
